

Unlock Data Insights From Edge to Cloud Solutions

Seagate® provides a full storage portfolio of video and analytics solutions built and tested for security and surveillance. Our enterprise systems are certified with leading VMS players such as Genetec and Milestone, providing a unified security platform—an intelligent, scalable, and centralized data storage system capable of enduring performance and long-term data protection.

Skyhawk™ and SkyHawk AI drives—purpose-built for NVR surveillance—support always-on security, machine learning, and AI and have consistently delivered best-in-class performance for 10 years running. When combined with Exos™ and Nytro™ enterprise drives for centralization, expect the best in server storage solutions.

Benefits

- **Optimizes streaming** by delivering high bandwidth when saving video recordings with higher frame rates without losing a single frame.
- **Delivers the highest protection for video data** with Advanced Distributed Autonomic Protection Technology (ADAPT).
- **Provides enterprise-class security** with Seagate data-at-rest self-encrypting drives (SED).
- **Allows centralized VMS management** to store and manage the recorded videos from a distributed implementation.
- **Offers unified centralized video management**, access control, ALPR, intrusion, and communications in a single user interface.

LYVE™ Cloud

Best-Fit Environment:

- Enterprise NVR
- VMS Appliance Storage Sub-system

Surveillance & Security Data Solutions

Unlock data insights from edge to cloud solutions.

EDGE COMPUTING & STORAGE		COMPUTE & CENTRALIZED STORAGE	DATA BACKUP
DVR	Hybrid, NVR AI, VMS Appliance	Enterprise NVR, VMS Appliance Storage Sub-System	JBOD, Archive Cold Storage
Facial Recognition, Sequential 24x7 Video Recording		Facial Recognition, Traffic Pattern Analysis, Machine Learning Workloads	Mixed Workloads Video Backup

SkyHawk & SkyHawk AI HDD

SkyHawk AI, Exos HDD & Nytro SAS SSD

Exos HDD

Digital Video Recorder & Network Video Recorder

Exos X 2U12, Exos X 5U84
